Easy access to Schüco business receipts

FIND & ORDER ARTICLES

GET SCHÜCO PROFILES AND ACCESSORIES FAST

With Connect, you can order Schüco profiles, accessories and fittings online at any time. The ordering process is transparent and easy to plan, as Connect accesses the latest data in real time and – prior to the order being placed – calculates whether the selected articles are available and when they will be delivered.

It's practical too: Connect now displays successor or alternative articles for items. For more details, you can use the direct link to Schüco Docu Center. You can also use the search function to find all the business receipts for your consignment.

COATED PROFILES AND SPECIAL LENGTHS

In Connect, you can now order coated profiles and profiles in special lengths.

This extension allows you to easily configure the surface treatment you want and order online, with pricing and delivery information provided or the selected coating option.

FROM CALCULATION TO ORDERING

You can order articles even faster now thanks to useful interfaces.

At the end of the calculation with SchüCal, you can now transfer project-related material lists as a basket or favourites list to selected Connect users for checking and further processing.
